Exp 4A – Data Modelling and Form Design (Basic Fields)

Aim

To design and build a Bank Account Opening Form in Zoho Creator using all the Basic Fields in the Form Builder, to collect and process new account requests in a clear way.

Fields Used

Field Type	Field Name	Choices / Note
Name	Customer_Name	First Name, Last Name
Email	Email_Address	
Address	Residential_Address	
Phone	Mobile_Number	+91 format
Single Line	PAN_Number	10 characters
Multi Line	Purpose_Of_Account	
Number	Opening_Deposit	Minimum 1000
Date	Date_Of_Birth	
Time	Preferred_Visit_Time	Branch visit time
Drop Down	Account_Type	Savings, Current, Fixed Deposit, Recurring Deposit
Radio	Customer_Category	Individual, Senior Citizen, Student
Multi Select	Services_Required	ATM Card, Net Banking, Cheque Book, SMS Alerts, UPI
Checkbox	Agree_To_Bank_Terms	I agree to the bank terms and conditions

Form Layout (Section-wise)

Use the **Section** field to split the form.

Section A — Customer Details

- Customer Name (Name)
- Date of Birth (Date)
- PAN Number (Single Line)
- Customer Category (Radio)

Section B — Contact Details

- Email Address (Email)
- Mobile Number (Phone)
- Residential Address (Address)

Section C — Account Details

- Account Type (Drop Down)
- Services Required (Multi Select)
- Opening Deposit (Number)
- Purpose of Account (Multi Line)

Section D — Branch Visit & Consent

- Preferred Visit Time (Time)
- I agree to the bank terms and conditions (Checkbox)

Validation Rules to Configure

- Customer Name, Mobile Number, PAN Number, Account Type, Customer Category, and Consent Checkbox are **Mandatory**.
- Email: built-in email format check is on.
- Phone: country code set to India (+91).
- PAN Number: set Max characters = 10 and tick **No duplicate values**.
- Opening Deposit: set Min value = 1000 and Max value = 1000000.
- Date of Birth: do not allow future dates.
- Checkbox: the form cannot be submitted unless it is ticked.

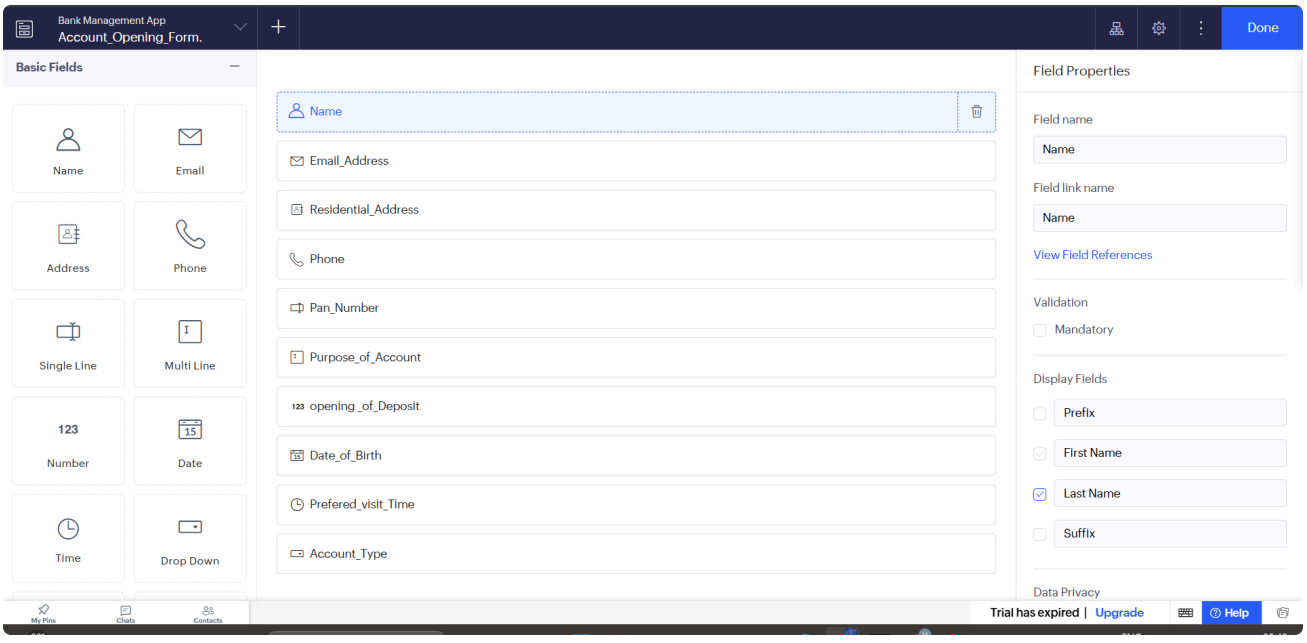

Confirmation Email (simple workflow)

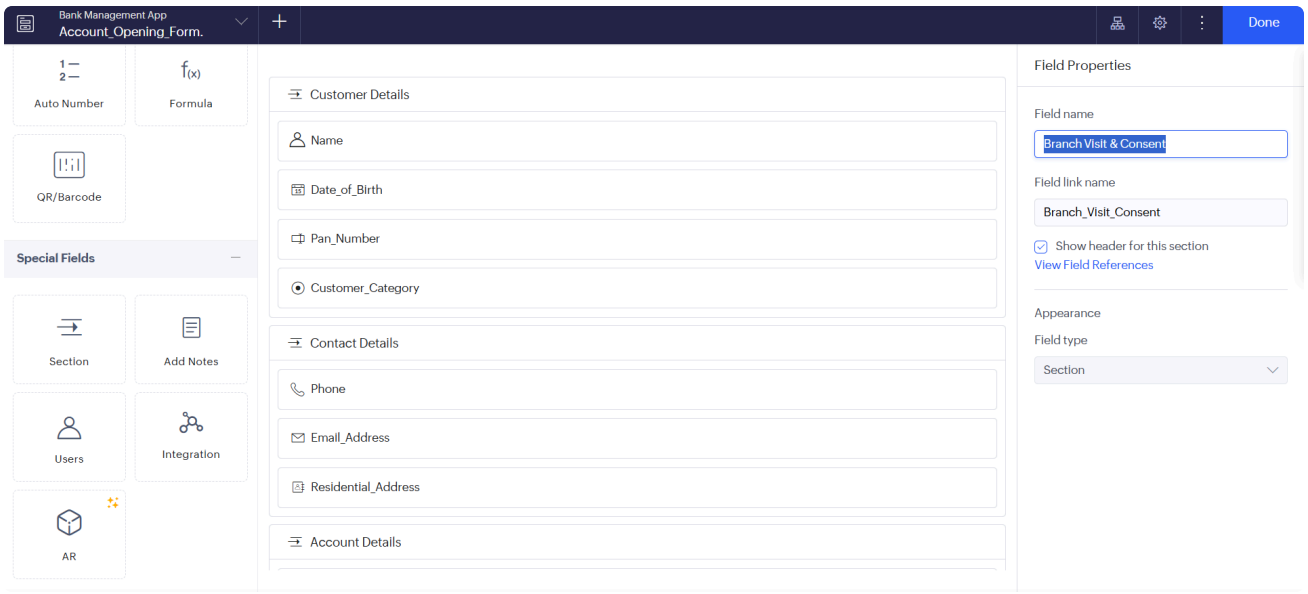

Go to **Workflow → Form Workflows → New Workflow**. Form = Account_Opening_Form, Run when = Created, On = Successful form submission. Add action **Send Email**:

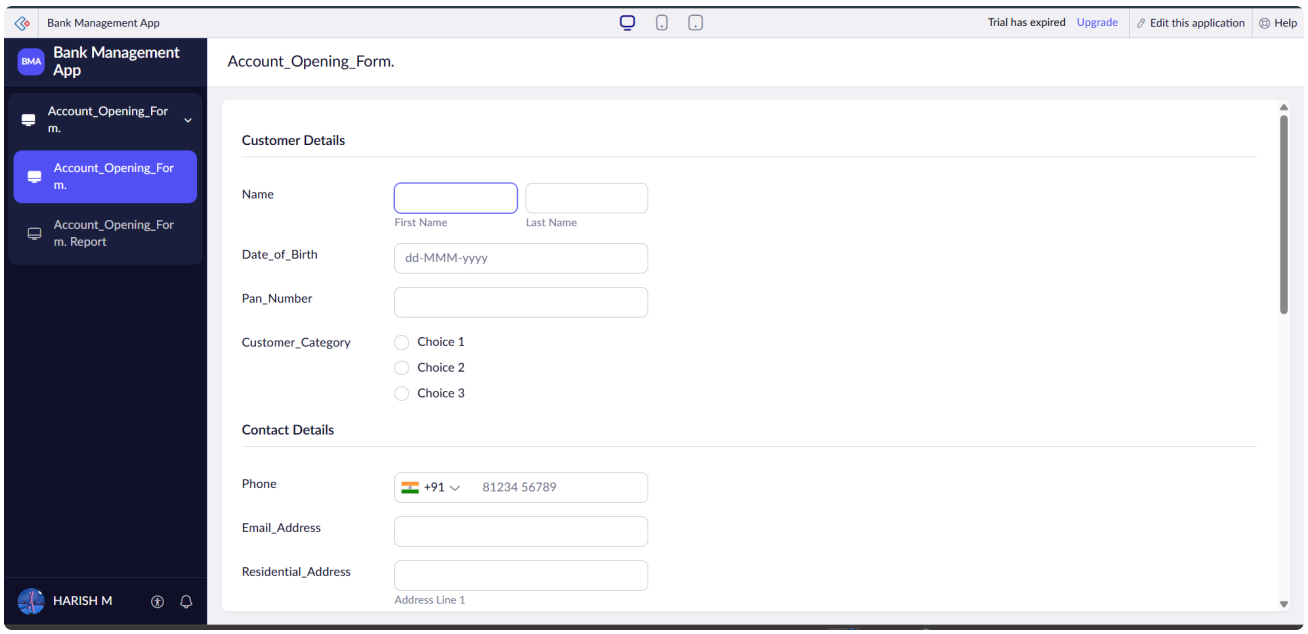

- To: `${Email_Address}`
- Subject: Account Opening Request Received
- Message: Dear ${Customer_Name}, thank you for your account opening request. Our branch team will verify your details and contact you soon. Regards, Bank Team

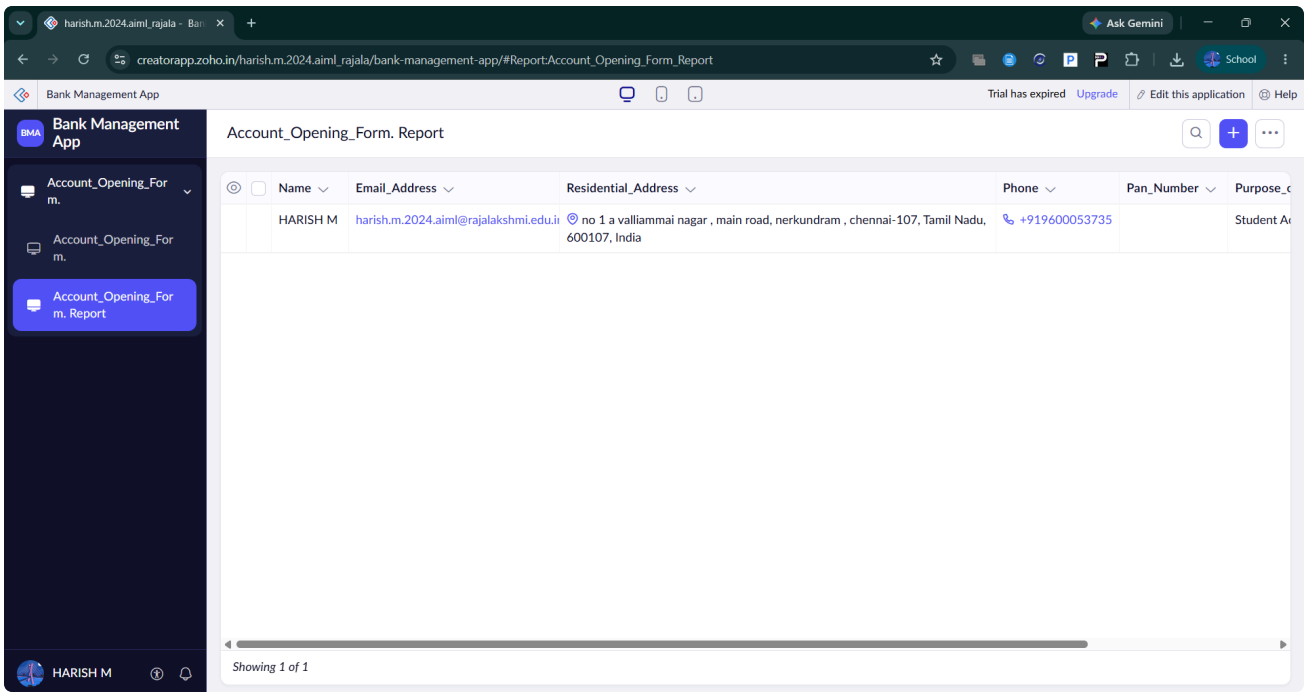

Workflow Summary

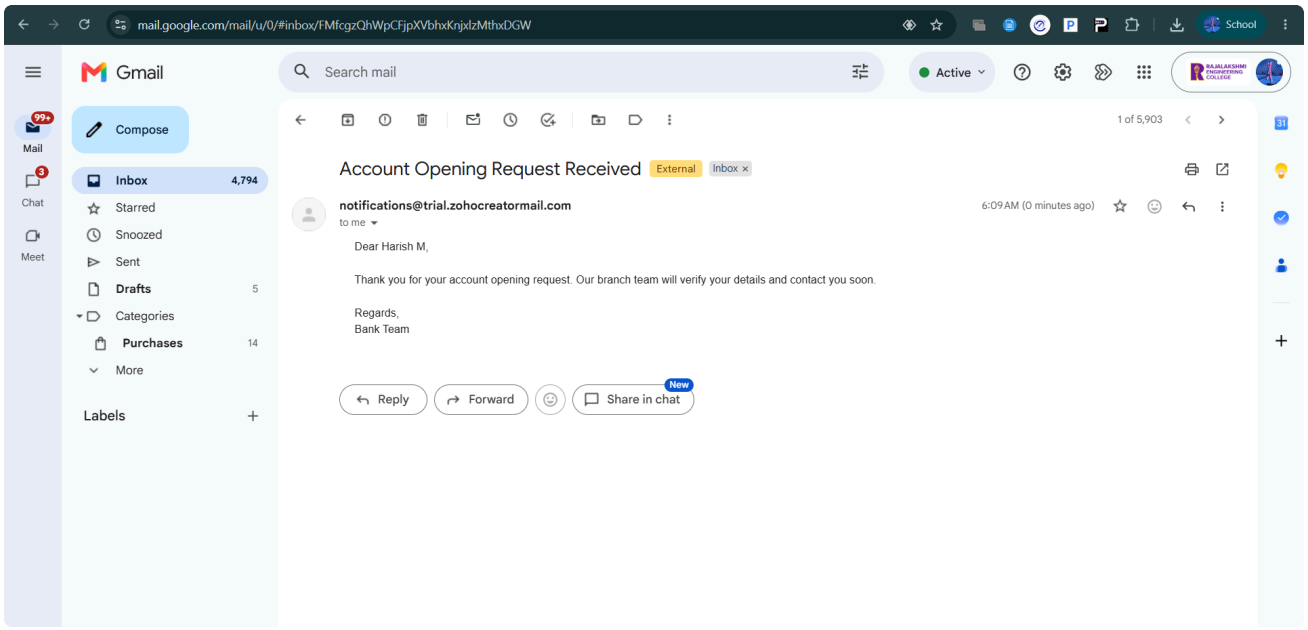

1. Customer opens the public form link shared on the bank website or at the branch.
2. Customer fills personal, contact, account, and visit details across the four sections.
3. On clicking Submit, Zoho Creator checks all mandatory fields and formats.
4. A new record is created in the Account_Opening_Form_Report.
5. A confirmation email is sent to the customer using the Email field value.
6. Bank staff open the report, filter by Account Type and Visit Time, and prepare for KYC verification.

Result

The Bank Account Opening Form was designed and built in Zoho Creator using the Basic Fields, validations, and workflow. Customers can submit account requests, which are stored in the report for bank staff to review and process.
