Exp 5 – Reports, Dashboards, and UI Builder

Aim

To design and build a set of Reports and a dashboard page in Zoho Creator for the Bank Management System, showing how each report type helps manage and monitor accounts and transactions.

Procedure (Reports)

1. Logged in to Zoho Creator and opened the Bank Management System app.
2. Opened the existing Account_Opening_Form and Transaction_Form.
3. Created the following nine reports (click **+ → Report** and pick the type):

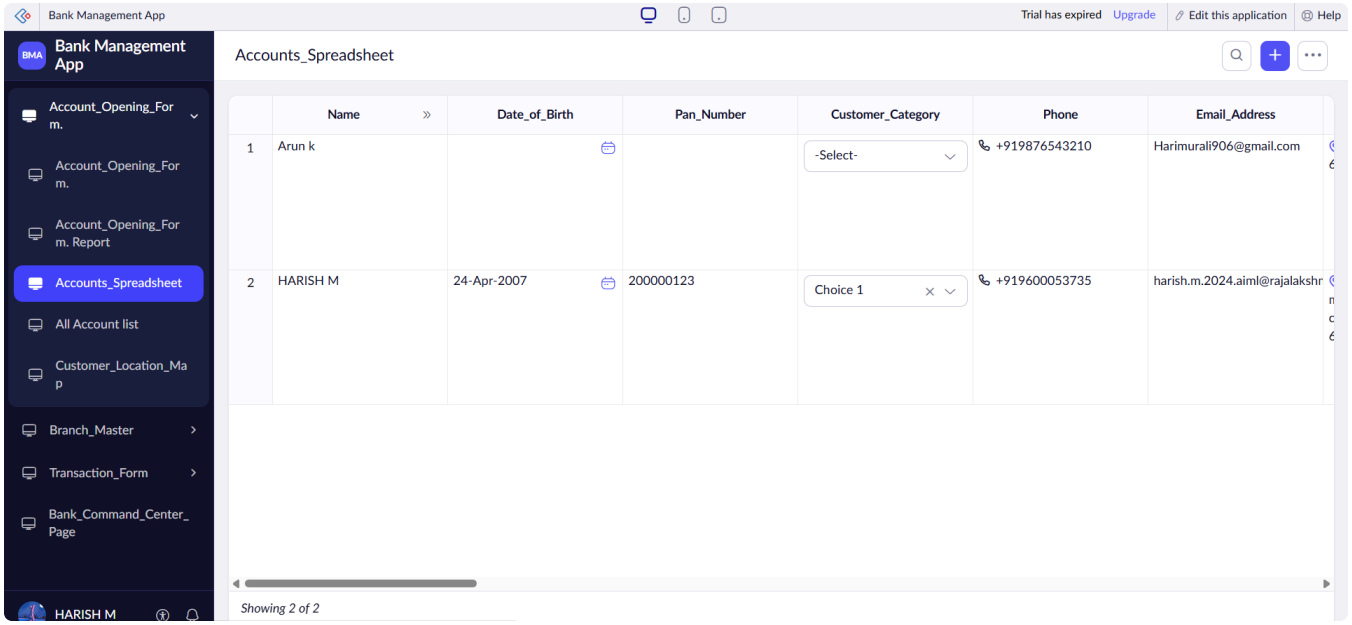

Report Name	Type	Based on	Setting
All_Accounts_List	List	Account_Opening_Form	Show Name, Account Number, Type, Branch
Accounts_Spreadsheet	Spreadsheet	Account_Opening_Form	Inline edit for staff
Account_Status_Kanban	Kanban	Account_Opening_Form	Group by Account_Status
FD_Maturity_Calendar	Calendar	Account_Opening_Form	Date field = FD_Maturity_Date
Customer_Location_Map	Map	Account_Opening_Form	Address = Residential_Address
Transaction_Timeline	Timeline	Transaction_Form	Date = Transaction_Date
AccountType_By_Branch_Pivot	Pivot Table	Account_Opening_Form	Rows = Branch, Columns = Account_Type, Value = Count
Transaction_Type_Chart	Pivot Chart	Transaction_Form	X = Transaction_Type, Y = Sum of Amount
Branch_Wise_Summary	Summary / List with grouping	Account_Opening_Form	Group by Branch, sum Opening_Deposit

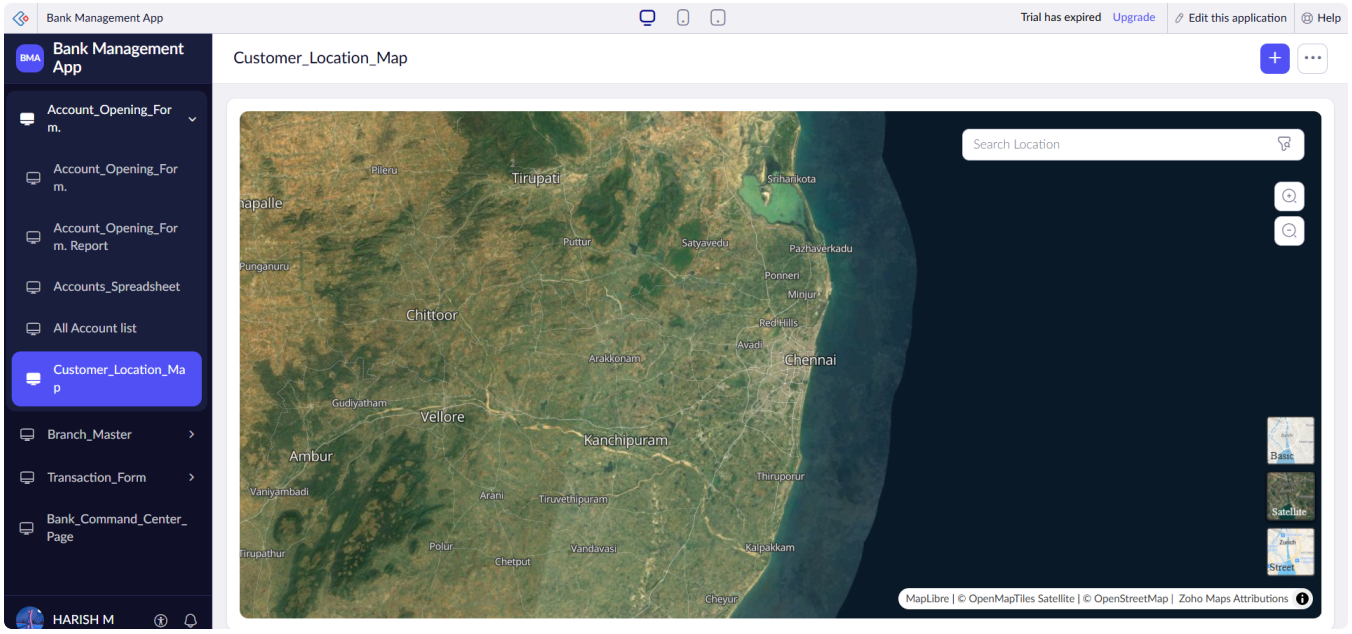

4. Set sorting, grouping, filters, and totals for each report.
5. Added sample records and checked each report.

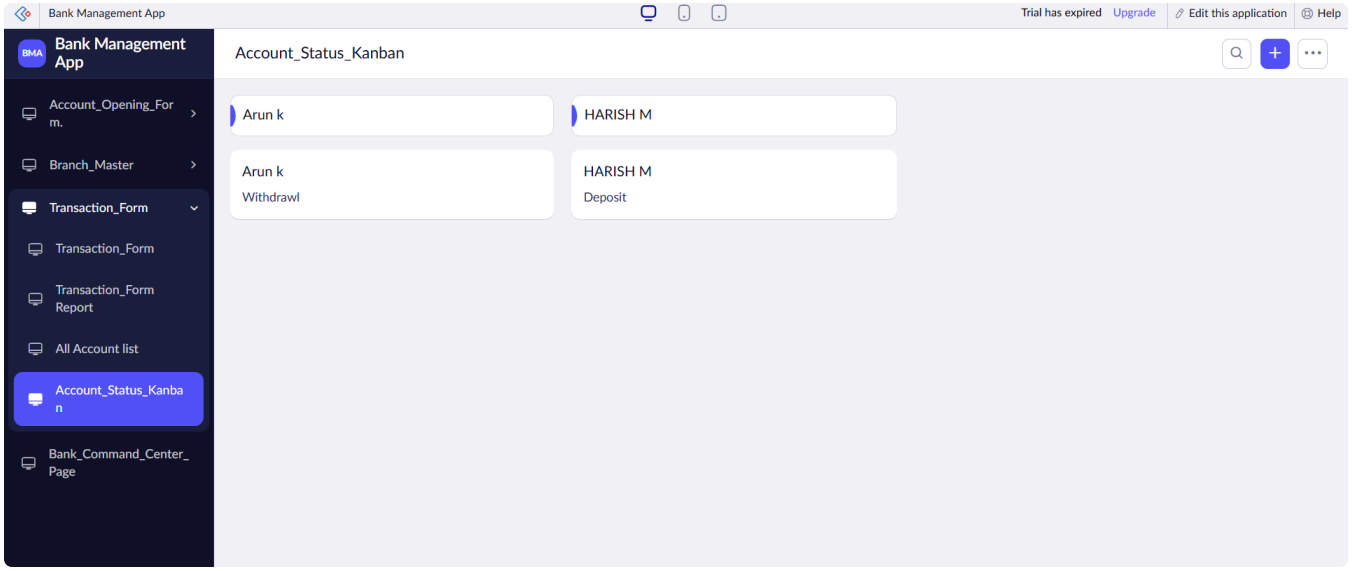

6. Tested Kanban drag (move a card from KYC Pending to Approved), calendar navigation, and record details.
7. Verified all reports and the data shown.

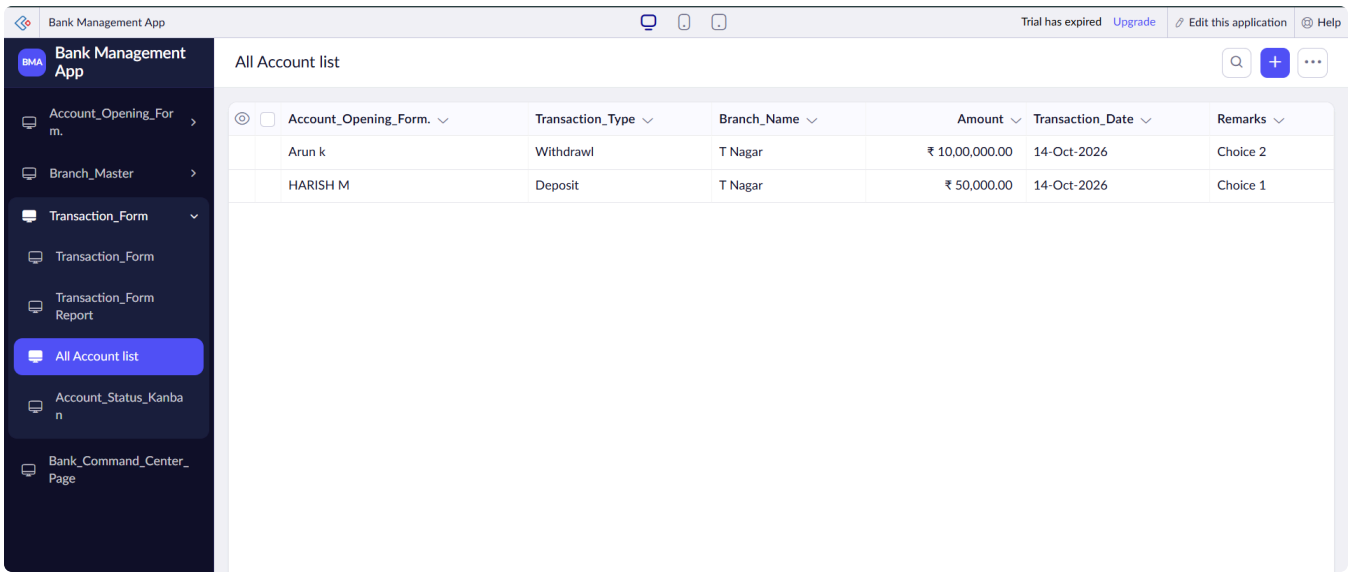

Procedure (Dashboard and UI Builder)

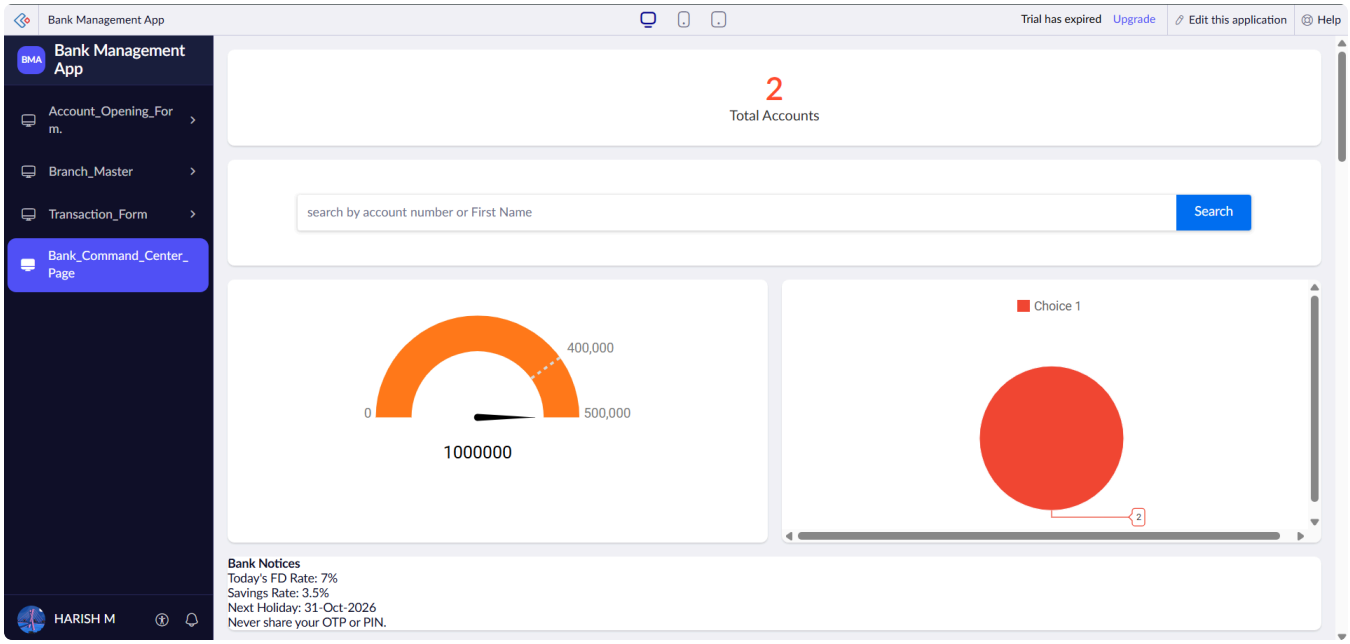

1. Opened the Bank Management System app.
2. Created a new page named **Bank_Command_Center_Page** (+ → Page).
3. Added a **Panel** as the main layout box.
4. Added a **Gauge** (Total Deposits), **Chart** (accounts by Account_Type), and **Search** (search by customer name, account number, or PAN).
5. Added a **Board** named Account_Status_Board grouped by Applied, KYC Pending, Approved, Active, Closed.
6. Added a **Button** named Send_KYC_Reminder_Button to trigger KYC reminder emails.
7. Embedded the **Account_Opening_Form** using the Form component.
8. Added the accounts report using the **Report** component.
9. Added **Snippets** for bank notices (interest rates, holiday list) and a **Viewer** for the terms PDF.
10. Set properties, data sources, and access for each element.
11. Tested Search, Chart, Gauge, Board, Form, and Report components.
12. Saved the page and checked all elements.

Result

The Bank Management System was developed in Zoho Creator with nine report types and a Bank Command Center dashboard. These help organize accounts, track account status, analyze transactions, and manage branch activities efficiently.
